

Statement of Understanding and Intent

The Warrior Boys Basketball program is managed by volunteers on behalf and for the betterment of the Westside High School Boys Varsity Basketball Program. The goal, as is stated in its mission, is to assist District 66 boys in their interests to develop into becoming better basketball players. The program exists under the oversight of the Westside Varsity basketball coach, and as such, functions to develop and teach District 66 boys whose goals include playing basketball for Westside High School.

To that end, the resources, time and effort invested in the Warrior Boys Basketball Program is intended to benefit those players, as well as the limited number of families that can be accommodated in the program. While this has been the intention since the inception of the program, we believe it is imperative for this to be clearly communicated. Therefore, please read and sign this statement of intention and provide it back to your coach or a program administrator. Thank you.

I _____ intend for my son, _____, to
